

## *Thu., January 7: How to Give Your Boat a Performance Makeover*

Ralph Naranjo, technical editor, *Practical Sailor* magazine. As a circumnavigator, manager of a full-service boat yard and the person responsible for the sail training program at the U.S. Naval Academy, Ralph's sage advice is invaluable. Topics include bargain electronic networking, hardware and running rigging upgrades, cost-effective keel fairing and more.

## *Thu., January 28: Around the World Solo at 16*

Zac Sunderland, Thousand Oaks, California, the youngest American to circumnavigate the earth on a sailboat. What were you doing when you were 16 – learning to drive? Zac was starting a 13-month odyssey on his 36-foot Islander, named Intrepid. Now 17, he's writing a book, but you can hear the stories at BYC first.

## *Wed., February 3: An Update on Racing Rules*

Commodore Ted Everingham, CEO Everingham & Associates

## *Thu., February 11: Everything You Need To Know About the BYC Mackinac Race 2010*

Tom Burleson, Mackinac Race Chairman. The seminar will also help first-time skippers and crew understand what is necessary to properly prepare for the race.

## *Thu., February 18: The Maritime Road Show and Appraisal Event*

Ernest Du Mouchelle, Du Mouchelle Art Galleries Company. Bring your maritime antiques to the club and find out more about their history and what they're worth. Qualified appraisers, including Ernest, will give the scoop on what's hot and what's not in today's market. Appraisals during the afternoon, presentation that night. Watch for details.

## *Thu., February 25: Stand By for Whiplash: How to Integrate Mast Tuning and Sail Trim*

Sailmakers Al Declercq and Wally Cross and mast builder Andy Groh explain how to tweak everything above the deck to produce a harmonious speed machine. If you want to go faster, attend this seminar.

## *Thu., March 4: Insider Tips for Using Weather to Your Competitive Advantage*

Chris Bedford's insights into the vagaries and nuances of Great Lakes weather patterns will help get you to the Pony before last call. His tips apply to both around-the-buoys and point-to-point races. Chris owns and is chief meteorologist at Sailing Weather Service LLC, Massachusetts.

## *Thu., March 11: Championship Tactics for All Hands*

Gary Jobson, President US Sailing Association. Whatever your position on the crew, the pros can teach you something about tactics and speed techniques. Always entertaining, Gary shows the pros in action.

## *Thu., March 18: How To Win the Mackinac Race*

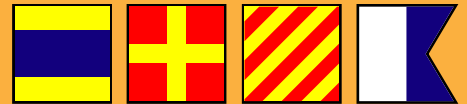

A panel discussion moderated by Commodore Ted Everingham features some of the Mac's most winning sailors.

## *Thu., March 25: How to Score in the NOOD*

Speaker to be announced.

## *Thu., April 8: It Takes a Village to Run a Mackinac Race*

Marcia Everingham
