

J35 T35 ONE DESIGN 2004 RULES & LIMITATIONS

The following rules shall apply to the **J35 T35 Class** for **2004**. The rules apply to all races, regattas, or events where a **J35 T35 Class** start is in effect.

I. Sail Inventory Restrictions

A maximum of one mainsail, two genoas, three spinnakers, one jib & one heavy weather jib (as defined by ORC regulations) may be carried aboard during an event or regatta.

SAIL	% OF J	LP: J-35***	LP: T-35***
#1 Genoa	Max 155%	22.79 feet	22.09 feet
#2 Genoa	Max 149.7%	22.00 feet	21.33 feet
	Min 134.6%	19.78 feet	19.18 feet
# 3 Genoa	Max 101.6%	14.93 feet	14.96 feet (T-35 = 105%)
#4 Genoa	Heavy Weather Jib (As defined by ORC regulations)		
3 Spinnakers	<p>Spinnakers shall not be constructed of any material lighter than 30 grams per square meter, (0.7 oz. per sailmaker's yard, where a sailmakers yard is defined as 36 inches by 28.5 inches.) The spinnaker material shall be woven poly or nylon and no other exotic material.</p> <p style="text-align: center;"><i>The following is intended to serve as a guide for participants and race organizers:</i></p> <p style="text-align: center;"><u>Acceptable Materials for Minimum-Weight Spinnaker Cloth</u> .5 poly, North T-6016, Dimension 6611, Contender Superlite .6oz. nylon, 30-20, Porscher Nylon SO52 & SO42, Test 404, Richard Hayward SS060, and .5 Zephyercote.</p>		
Staysail	None		
Asymmetrical Spinnaker	None		

*** J-35: "J" = 14.7 feet *** T-35: "J" = 14.25 feet

No sails other than the approved genoas/jibs, spinnakers & mainsail can be used & only one of each of these, on the proper hoist, can be above deck at the same time, except when changing sails.

Regatta Sail Restrictions:

The sails selected and used for the first race of the regatta must meet the requirements listed above and must be used for the entire regatta. Exchanging or substitution of sails during an event is not permitted. Damaged sails may be repaired, or replaced upon review & approval of the technical committee. Regatta restrictions are in effect for the **NOOD, Cheboygan, & LHOOD** events. When in effect, these restrictions supercede any other restrictions.

Series Sail Restrictions:

Sails can be exchanged or substituted during separate races in a series provided the sails meet the requirements listed above. Series restrictions apply to Wednesday Nights, DRYA, Fall Series, and races where the Regatta restrictions are not in affect.

Exceptions: For Pt. Huron-Mackinac Race the sail inventory is as limited by PHRF rules except that asymmetrical spinnakers are not permitted.

II. Crew Limitations:

For the **NOOD, Cheboygan, & LHOOD** the number of crew on board each yacht during any race shall not exceed ten (10) persons, or less than five (5). There is no restriction on crew weight. Skippers are reminded of the "**spirit of the rule**" and should be mindful of abusing the crew limit minimums. **Such abuse may be grounds for review and action by the technical committee.**

Unless otherwise specified other **J35 T35 Class** races have no crew limitations.

Pt. Huron-Mackinac is limited as per the sailing instructions.

PHYC and LHYA **J35 T35 Class** races are limited as per the sailing instructions.

III. Competitor Eligibility:

Only one group 2 or group 3 competitor shall be allowed per yacht (*See Appendix R of the Racing Rules of Sailing – Definitions for Competitor Eligibility*).

IV. Safety Equipment:

Minimum safety gear & equipment shall be as required by ORC Category 4 Regulations and as required or modified by the sailing instructions.

V. Interior Equipment

The following minimum interior equipment is required on all boats:

- Two burner stove, gimbale
- Quarter berth & settee plywood
- Galley sink with through hull fittings
- Head with through hull fitting
- Factory installed ice box or cooler(s) with a total capacity of not less than 3.0 cubic feet of storage

Interior equipment supplied with the standard boat from the factory may not be removed except for the following:

- All cushions, Head doors, Table

VI. Electronics & Instrumentation

There are no restrictions on instrumentation. All forms of electronics, measuring devices, navigational computes, etc. are permissible.

VII. Definition of Jibs and Genoa's

A Jib is a sail, other than a spinnaker, set in the foretriangle. A jib when measured on the perpendicular from the luff (outside edge of the sail and/or luff rope) to clew (intersection of the lines of the foot & leech) shall not exceed 4550 mm (14.93 feet).

A genoa is a sail, other than a jib or spinnaker, set in the foretriangle. A genoa shall be measured on the perpendicular from the luff (outside edge of the sail and/or luff rope) to clew (intersection of the lines of the foot & leech). This LP measurement shall not exceed 6945 mm (22.79 feet).

In any jib or genoa, the midgirth measured between the midpoints of luff & leech shall not exceed 50% of the foot length nor shall the length of intermediate girths at 25% & 75% of the luff & leech from the head exceed values similarly proportioned to their distance from the head.

No clewboard or headboards may be used in any jibs or genoas.

A maximum of four (4) battens may be used in jibs & must be arranged with approximately equal spacing between head & clew.

Battens may be used in jibs only if the sail is so tacked that the forward end of the batten is forward of the centerline of the mast. Battens of any length are allowed, but no batten shall project outside of a straight line drawn from the head of the jib to the clew.

Jibs & genoas may be sheeted from only one point on the sail except in the process of reefing the sail.

VIII. CLASS RULES

Unless otherwise noted in these rules all yachts must conform to J35 or T35 Class rules for hulls, weights, appendages, and rigging requirements.

IX. Season Championship Trophy.

- A. The Half-hull model is a perpetual trophy and is presented to the Season Champion as determined by the scoring formula noted below.
- B. Awards will also be presented for 1st, 2nd, 3rd place based on Season Champion scoring

IX.1 Season Championship Scoring.

The **J35 T35 Class** Season Champion shall be determined by the following criteria:

- A. Scoring will be performed on an individual race basis. The Low Point scoring method will be used with (1) point for first place per Appendix A of the Racing Rules.
- B. Season Championship scoring will include only dues paying boats from our local fleet. All races will be scored as if all other boats did not participate.**
- C. Scoring will be performed using a variable number of throw -outs: 33% of all races sailed will be thrown out

For example:

- a. In the event 17-18 races are sailed, 6 races will be thrown out
- b. In the event 14 -16 races are sailed, 5 races will be thrown out
- c. In the event 12-13 races are sailed, 4 races will be thrown out
- d. In the event 8-11 races are sailed, 3 races will be thrown out

- D. Boats missing more than the number of thrown out races will have at least one of their DNS's counted toward the season final score. The number of points associated with any DNS will be the number of participants in the specific missed race plus 1 point. If a boat is forced to count a DNS, and the boat has more than one DNS for the season, then the DNS that is counted will be the one with the lowest number of points (e.g. from the race with the fewest participants).
- E. All DNS races must be thrown out before a boat can throw out a sailed race.
- F. DSQ 's can be thrown out.

XI Annual Winter Meeting & Party

- A. It is the tradition of the **J35 T35 Class** that the season champion shall host the annual winter meeting & party with financial assistance from the trophy funding. The winter meeting is normally held in late January or early February.

XII. Technical Committee

- A. The technical committee is charged as being the final authority regarding measurements or interpretations of class rules. If any issues or potential infractions arise the technical committee will be responsible to review the situation and make appropriate determinations. The technical committee may review and recommend changes to the class rules subject to approval by a majority of owners.
- B. The technical committee shall consist of the current fleet captain, past fleet captain, and representative from each Pt. Huron, Anchor Bay, and DRYA. In addition, both J's & T's shall be equally represented. (I.e., no less than two of either boat).
- C. **2004** Technical committee: Bill Wildner, Bill Vogan, Dale Peppel, Chris Herriges, Bob Pethick, **Ed Bayer**.

XII. Trophy fund

- A. A seventy-five dollar annual donation from each boat will be pooled into the trophy fund. The trophy fund will be used to pay for awards, trophies, and other expenses as the class sees fit. The fleet captain will administer the fund.
- B. Any boat that does not contribute to the trophy fund will not be eligible to participate in the awards.
